PROFILE

FX artist with two years of full-time Houdini experience, focused on photorealistic destruction, fire and pyro, water (FLIP) and cinematic rendering for film and game projects. Currently studying a BA in Visual Effects at U-tad, building a production-minded workflow from simulation to Karma render and Nuke comp.

VFX PROJECTS

Personal and university projects covering fire and pyro, FLIP water, cloth destruction and environment effects in Houdini, taken from simulation through Karma rendering to final comp. Highlights include a burning flag, a large-scale waterfall and a burning car scene.
